Project Name	ShopEZ: E-Commerce Application
Maximum Marks	

Project Overview:

Project Name: ShopEZ: E-Commerce Application

Project Description:

ShopEZ is a web-based e-commerce application that allows users to browse products, view store details, add products to cart, and place orders online. Admins or sellers can manage stores, products, users, and orders through the system.

Project Version: 1.0

Testing Period: 01 June 2026 to 10 June 2026

Testing Scope:

- User registration and login
- Product listing
- Product details page
- Store listing and store details
- Add to cart functionality
- Update and remove cart items
- Order placement
- Admin/seller store management
- Product management
- Backend API responses
- Database connectivity
- Form validation
- Error handling

As a customer, I want to register and log in so that I can access my account.

As a customer, I want to browse products so that I can choose items to buy.

As a customer, I want to add products to my cart so that I can purchase them later.

As a customer, I want to place an order so that I can buy selected products.

As an admin/seller, I want to manage stores so that store information remains updated.

As an admin/seller, I want to manage products so that customers can view correct product details.

Testing Environment:

URL/Location: Localhost / Web Application

Example: <http://localhost:5173>

Backend URL: http://localhost:5000

Credentials (if required):

Customer Login: create new account

Admin Login: admin@shopez.com/ Admin123!

Used actual credentials already created in database.

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User registration	1. Open registration page 2. Enter valid user details 3. Click Register	User account should be created successfully	User registered successfully	Pass
TC-002	User login	1. Open login page 2. Enter valid email and password 3. Click Login	User should be logged in and redirected to home page	User logged in successfully	Pass
TC-003	Invalid login	1. Open login page 2. Enter wrong credentials 3. Click Login	Error message should be displayed	Error message displayed	Pass
TC-004	View product list	1. Open home/products page	Products should be displayed with	Products displayed correctly	Pass

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
		2. Check listed products	name, price, and image		
TC-005	View product details	1. Click on a product 2. Open product details page	Product details should be shown correctly	Product details displayed	Pass
TC-006	Add product to cart	1. Open product page 2. Click Add to Cart	Product should be added to cart	Product added to cart	Pass
TC-007	Update cart quantity	1. Open cart page 2. Increase/decrease quantity	Cart quantity and total price should update	Cart updated correctly	Pass
TC-008	Remove product from cart	1. Open cart page 2. Click remove button	Product should be removed from cart	Product removed successfully	Pass
TC-009	Place order	1. Add product to cart 2. Go to checkout 3. Submit order	Order should be placed and saved in database	Order placed successfully	Pass
TC-010	View stores	1. Open store page 2. Check store list	Store details should be displayed	Stores displayed correctly	Pass
TC-011	Add store by admin/seller	1. Login as admin/seller 2. Open store management 3. Add store details	New store should be created	Store created successfully	Pass

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail

Notes:

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
