

Project Design Phase-II Data Flow Diagram & User Stories

Date	11 June 2026
Team ID	
Project Name	ShopEZ: E-Commerce Application
Maximum Marks	4 Marks

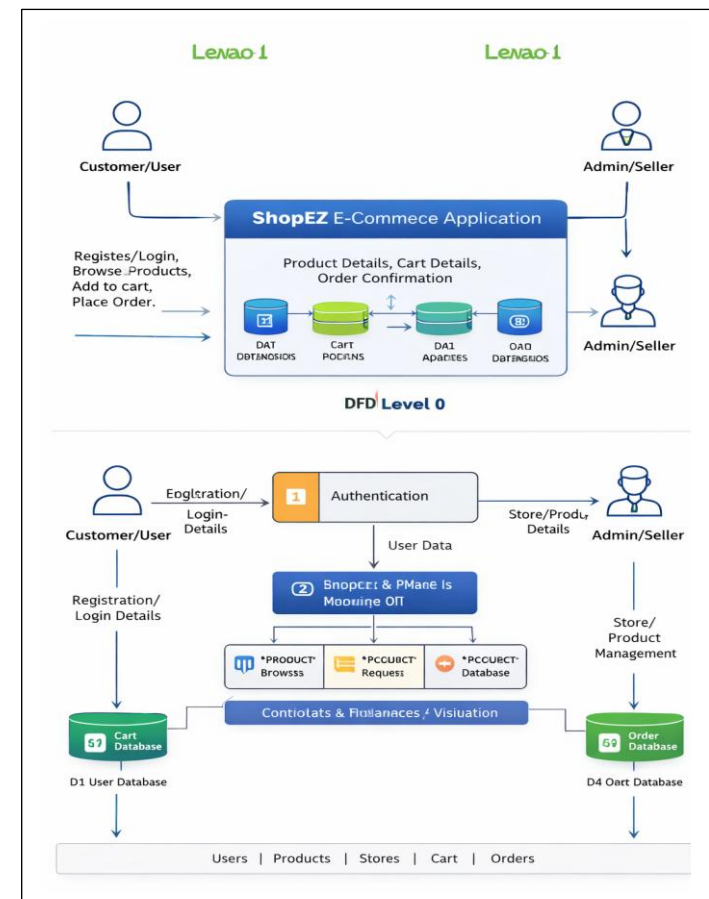

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system.

A neat and clear DFD can depict the right amount of the system requirement graphically.

It shows how data enters and leaves the system, what changes the information, and where data is stored.

DFD Level 0 and DFD Level 1

User Stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Customer Web User	Registration	USN-1	As a user, I can register for the application by entering my name, email, password, and confirming my password.	User account is created and user can access the application.	High	Sprint-1
Customer Web User	Registration	USN-2	As a user, I can see validation messages when required registration fields are empty or invalid.	System displays proper validation messages for invalid input.	High	Sprint-1
Customer Web User	Login	USN-3	As a user, I can log into the application by entering my email and password.	User is logged in and redirected to the homepage/dashboard.	High	Sprint-1
Customer Web User	Login	USN-4	As a user, I can see an error message when wrong login credentials are entered.	System displays an invalid email or password message.	High	Sprint-1

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Customer Web User	Dashboard	USN-5	As a user, I can view the homepage/dashboard after login.	Homepage/dashboard displays products and navigation options.	High	Sprint-1
Customer Web User	Products	USN-6	As a customer, I can view the list of available products.	Product list displays product name, price, image, and details.	High	Sprint-2
Customer Web User	Products	USN-7	As a customer, I can view detailed information about a selected product.	Product details page displays description, price, image, and availability.	High	Sprint-2
Customer Web User	Products	USN-8	As a customer, I can search or filter products.	Products are filtered according to search keyword or category.	Medium	Sprint-2
Customer Web User	Store	USN-9	As a customer, I can view store information.	Store page displays store name, address/contact, and available products.	Medium	Sprint-2
Customer Web User	Cart	USN-10	As a customer, I can add products to my cart.	Selected product is added to cart successfully.	High	Sprint-3

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Customer Web User	Cart	USN-11	As a customer, I can view all products added to my cart.	Cart page displays selected products, quantity, and total amount.	High	Sprint-3
Customer Web User	Cart	USN-12	As a customer, I can update product quantity in my cart.	Quantity changes and total price updates correctly.	High	Sprint-3
Customer Web User	Cart	USN-13	As a customer, I can remove products from my cart.	Product is removed and cart total is recalculated.	High	Sprint-3
Customer Web User	Order	USN-14	As a customer, I can place an order from my cart.	Order is created and saved successfully.	High	Sprint-3
Customer Web User	Order	USN-15	As a customer, I can view order confirmation after placing an order.	System displays order confirmation message/details.	High	Sprint-3
Customer Web User	Order	USN-16	As a customer, I can view my order history.	User can see previous orders with status and order details.	Medium	Sprint-3
Administrator	Product Management	USN-17	As an admin, I can add a new product.	New product is saved and visible in product list.	High	Sprint-2

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Administrator	Product Management	USN-18	As an admin, I can update existing product details.	Updated product information is saved and displayed correctly.	High	Sprint-2
Administrator	Product Management	USN-19	As an admin, I can delete a product.	Deleted product is removed from product list/database.	Medium	Sprint-2
Administrator	Store Management	USN-20	As an admin/seller, I can add a new store.	Store is created and stored successfully.	High	Sprint-2
Administrator	Store Management	USN-21	As an admin/seller, I can update store details.	Store details are updated and displayed correctly.	High	Sprint-2
Administrator	Store Management	USN-22	As an admin/seller, I can delete a store.	Store is deleted from the system.	Medium	Sprint-2
Administrator	Order Management	USN-23	As an admin, I can view all customer orders.	Admin can see customer order list with order details.	High	Sprint-4
Administrator	Order Management	USN-24	As an admin, I can update order status.	Order status is updated successfully.	High	Sprint-4

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Administrator	User Management	USN-25	As an admin, I can view registered users.	Admin can see list of registered users.	Medium	Sprint-4
System	Security	USN-26	As a system, I can restrict admin pages from normal users.	Only authorized admin users can access admin features.	High	Sprint-4
System	Validation	USN-27	As a system, I can validate forms on frontend and backend.	Invalid or empty data is rejected with proper messages.	High	Sprint-4
System	Database	USN-28	As a system, I can store user, product, store, cart, and order data in MongoDB.	Data is saved, retrieved, updated, and deleted correctly.	High	Sprint-1
System	Deployment	USN-29	As a user, I can access the deployed e-commerce application online.	Application opens successfully from hosted URL.	High	Sprint-4
